# BANDON music FESTIVAL

Bandon Music Festival 2011 is proving by far the most value for money, musically diverse and talent packed weekend in West Cork this summer. It starts here.....

The twelve participating pubs on the Music Trail have not only organized the line-up in The Shambles, outdoor concert area, but also have managed to cater for every musical genre in their own premises. Follow the Music Trail and revel in the MUSIC.

**JAMIE LAWSON**, singer-songwriter truly wasn't expecting what happened to him. In a matter of days, Lawson went from being a relative unknown to a YouTube sensation.

**SHARON SHANNON** has music at her fingertips.... literally! Sharon has achieved legendary status throughout the world renowned for her collaborations, not just in Irish traditional music, but through all musical genres, Hip-Hop, Cajun, Country, Classical and Rap. In Bandon she plays with her Big Band and ensemble of talent not to be missed. Her special guest the captivating **JERRY FISH**, he's woven many magical elements together to create a colorful tapestry of sound that is spellbinding.

**FIGHT LIKE APES** have been added to the bill for this year's Glastonbury festival but only after Bandon Music Festival has enjoyed their in-your-face, bratty punk, sludgy synth, dreamy pop, Indie, Rock sound. They do everything but complexity.

**REPUBLIC OF LOOSE** are one of Ireland's most original bands they have a unique sound and presence. Funk and soul are their twin loves and they are distilled in a very Irish way in this Band. They will close the 2011 Bandon Music Festival on a high.

Of course as you will see from the Programme the fun doesn't stop here..... we have daytime entertainment in Riverview Shopping Centre, at the Farmers Market and throughout Bandon over the weekend so bring along the kids and enjoy festivities.

Thanks to all our Sponsors and the participating Pubs on the Trail whom without this festival would not be happening.
